## Celebration of Diwali

“The Lamp is the lights. When Diwali is celebrated, the house lights up and lights..

In today’s modern days, the lifestyle is changing. It is beginning to lose humanitarian relations step by step. As a result, senior citizens are being swept away from home. The barbaric result of this creed is the factories today. Senior citizens in the occupations have a live-in silence. They have festive feasts, a celebration and a hiding place. Diwali celebrations are sure to delight the minds of the senior citizens. The Festival of lights should bring Diwali celebration, serenity and excitement in the old age, with all the people eating delicious sweets, putting on new clothes and celebrating with joy. The elders were greeted by Diwali with joy, ignorance, beauty, hatred and jealousy. Senior citizens this New Year Diwali hope to brighten, ease and relieve anxiety.
